

(d) Diverted by the operator of a pool plant or by a cooperative association described in §1000.9(c) to a nonpool plant, subject to the following conditions:

(1) Milk of a dairy farmer shall not be eligible for diversion until milk of such dairy farmer has been physically received as producer milk at a pool plant and the dairy farmer has continuously retained producer status since that time. If a dairy farmer loses producer status under the order in this part (except as a result of a temporary loss of Grade A approval), the dairy farmer's milk shall not be eligible for diversion until milk of the dairy farmer has been physically received as producer milk at a pool plant;

(2) The equivalent of at least two days' milk production is caused by the handler to be physically received at a pool plant in each of the months of August through November;

(3) The equivalent of at least two days' milk production is caused by the handler to be physically received at a pool plant in each of the months of December through July if the requirement of paragraph (d)(2) of this section (§1033.13) in each of the prior months of August through November are not met, except in the case of a dairy farmer who marketed no Grade A milk during each of the prior months of August through November.

(4) Of the total quantity of producer milk received during the month (including diversions but excluding the quantity of producer milk received from a handler described in §1000.9(c) of this chapter or which is diverted to another pool plant), the handler diverted to nonpool plants not more than 60 percent in each of the months of August through February and 70 percent in each of the months of March through July.

(5) Diverted milk shall be priced at the location of the plant to which diverted;

(6) Any milk diverted in excess of the limits set forth in paragraph (d)(3) of this section shall not be producer milk. The diverting handler shall designate the dairy farmer deliveries that shall not be producer milk. If the handler fails to designate the dairy farmer deliveries which are ineligible, producer

milk status shall be forfeited with respect to all milk diverted to nonpool plants by such handler; and

(7) The delivery day requirements and the diversion percentages in paragraphs (d)(2) and (d)(3) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise an applicable percentage must be issued in writing at least one day before the effective date.

Each handler shall report monthly so that the market administrator's office receives the report on or before the 7th day after the end of the month, in the

## § 1033.31

detail and on the prescribed forms, as follows:

(a) Each handler that operates a pool plant pursuant to § 1033.7 shall report for each of its operations the following information:

(1) Product pounds, pounds of butterfat, pounds of protein, pounds of solids-not-fat other than protein (other solids), and the value of the somatic cell adjustment pursuant to § 1000.50(p), contained in or represented by:

(i) Receipts of producer milk, including producer milk diverted by the reporting handler, from sources other than handlers described in § 1000.9(c); and

(ii) Receipts of milk from handlers described in § 1000.9(c);

(2) Product pounds and pounds of butterfat contained in:

(i) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(ii) Receipts of other source milk; and

(iii) Inventories at the beginning and end of the month of fluid milk products and bulk fluid cream products;

(3) The utilization or disposition of all milk and milk products required to be reported pursuant to this paragraph; and

(4) Such other information with respect to the receipts and utilization of skim milk, butterfat, milk protein, other nonfat solids, and somatic cell information as the market administrator may prescribe.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1000.9(c) shall report:

(1) The product pounds, pounds of butterfat, pounds of protein, pounds of solids-not-fat other than protein (other solids), and the value of the somatic cell adjustment pursuant to § 1000.50(p),

contained in receipts of milk from producers; and

(2) The utilization or disposition of such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to its receipts and utilization of milk and milk products in such manner as the market administrator may prescribe.

### § 1033.31 Payroll reports.

(a) On or before the 22nd day after the end of each month, each handler that operates a pool plant pursuant to § 1033.7 and each handler described in § 1000.9(c) shall report to the market administrator its producer payroll for the month, in the detail prescribed by the market administrator, showing for each producer the information described in § 1033.73(e).

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

### § 1033.32 Other reports.

In addition to the reports required pursuant to §§ 1033.30 and 1033.31, each handler shall report any information the market administrator deems necessary to verify or establish each handler's obligation under the order.
